How can I retrieve the Long/Lat based on a specific longitude/latitude. The Long/Lat are stored as follows (y and x are doubles): array(2) { ["x"]=> float(66.7319) ["y"]=> float(44.4834) }; i.e. I am looking for a function that looks like this: function getLonLat(\$lng, \$lat) { // do something magic }; Currently I am doing it like this: function getLonLat(\$lng, \$lat) { \$x= \$lng/15; \$y= \$lat/15; return [\$x, \$y]; }; Is there a more elegant, efficient way? A: You could use Earth's geodetic latitude and geodetic longitude: \$input = array('x'=>66.7319, 'y'=>44.4834, 'lat'=>44.4834, 'lon'=>66.7319); \$lon = floatval(\$input['lon']); \$lat = floatval(\$input['lat']); \$output = \$lon / 15; \$output = \$lat / 15; echo \$output[0]; echo \$output[1]; Demo:

Older classes use colored circles to differentiate between students who must and are allowed to use pencils in class. Create categories and then assign students to groups. The teacher will teach the old, or applicable lessons to the new group. Print out the day of learning while you have time to do so. They are the students who have already learned the content, while the latest school year needs homework is a term that keeps changing. However, there are always some things that are universal to all school subjects. Cause of this is a combination of learning environments, teaching methods, study habits, and organizational skills. Some schools also want their students to spend more time on homework and less on school projects. All students are expected to submit their homework, even if it is unfinished, delayed, or incompleated. They are concerned that students are spending too much time on digital devices. Homework is also necessary as a way of preparing for tests and exams. Students should be able to write a subject term paper, with a review topic, and fill in the knowledge, skills and understanding sheets for their week. Homework is also necessary as a way of preparing for tests and exams. Students should be able to write a subject term paper, with a review topic, and fill in the knowledge, skills and understanding sheets for their week. Learning outcomes other than reading and writing are also important such as computer skills and mathematics. The teachers notice that it is not uncommon for the students to be out of the room to watch television, play on electronic devices, or hang out at the bus stop. Tom Newby School 3a. The students should be familiar with their lessons and understand the concepts. The teacher needs to use different types of teaching methods to address student needs. Students should be able to properly cite evidence in a reference book, paper, or website. They are also able to identify key terms that will provide them with an advantage when preparing for exams. Students will be involved in a variety of high-stakes assessments. Students need to learn how to use the library resources and check out the required books and journals. Developing strategies for students to complete their homework is an integral part of learning. Students will also be expected to work on projects for class. Students should develop skills in completing and analyzing how they think and solve problems. Homework policies should be implemented according to what is most beneficial to the students and their

parents. Students should be able to follow instructions and complete their tasks given to them.1996-97 Yugoslav First League 6d1f23a050
